

The Grove Frog Species

Frogs

- Green Treefrog
- Southern Orange-eyed Treefrog
- Graceful Treefrog
- Eastern Sedgefrog
- Southern Dayfrog (feared extinct)
- Emerald-spotted Treefrog
- Naked Treefrog
- Striped Rocketfrog
- Broad-palmed Rocketfrog
- Stony-creek Frog
- Striped Marshfrog
- Tusked Frog
- Ornate Burrowing Frog
- Great Barred-frog
- Giant Barred-frog
- Copper-backed Broodfrog
- Australian Marsupial Frog (Mt Glorious)
- Beeping Froglet
- Clicking Froglet
- Eastern Gungan
- Cane Toad *Bufo marinus*
 - Eggs are unlike those of native frogs. They resemble a long string of egg noodles. Tadpoles swim and feed in schools.
 - Cane Toads are toxic at all stages of life. Care should be taken when handling because of toxic skin secretions.

How you can 'grow' Frogs in the Backyard

Would you like to have your own frog pond in your backyard? Jenny from [Queensland Frog Society](#) will tell you how. Royal Geographical Society of Queensland, 237 Milton Rd, Milton (UBD 21 L1) 7.30pm
