

## The Grove Spider Species

- [Spiders](#)

### On wall

- [Brown Huntsman](#). *Ready biter. Mild local pain*
- [Grey Huntsman](#) *Timid, biter, probably only mild local pain*
- [Giant Green Huntsman](#). *Timid, biter, probably mild local pain*
- [Net-casting Spider](#). *No bites recorded*
- [Garden Orb-weaver](#). *Hard, strong bite, readily delivered. Typically mild local pain for 30 minutes, atypically 3-4 hours strong pain*
- [Shield Huntsman](#). *Ready biter, large fangs. Mild to severe local pain often with temporary cardiac complications*
- [Swift Ground Spider](#) *Mild local pain. Rover, very fast runner*
- [White-tailed Spider](#) *Nip and run. Bites repeatedly. Usually mild local pain, redness, and a small local ulcer that clears up in a few days. More serious reactions claimed.*
- [Black House Spider](#) *Nip and run. Mild to severe, considerable disagreement concerning severity. Infection a known problem needing medical management*
- [Jumping Spider](#) *Rare biter, mild local pain*

### Above ground

- [Trapdoor. Several families. Needs expert identification](#)
- [Brisbane Brush-footed Trapdoor](#). *Concealed tube with one or two trapdoors. No bites recorded*
- [Wolf Spider](#) *Nip and run. Mild to local effects. Two species are predators on Cane Toads*
- [Swift Ground Spider](#) *Mild local pain. Rover, very fast runner*
- [White-tailed Spider](#) *Nip and run. Bites repeatedly. Usually mild local pain, redness, and a small local ulcer that clears up in a few days. More serious reactions claimed, such as necrotising arachnidism*
- [Spotted Ground Spider](#). *Mild local pain*

### Below ground

- [Funnel-web](#). *Severe, sometimes death. Males more venomous*
- [Trapdoor. Several families. Needs expert identification](#)
- [Brisbane Brush-footed Trapdoor](#). *Concealed tube with one or two trapdoors. No bites recorded*
- [Mouse Spider](#). *"Bull-terrier" Very hard and deep but no significant reaction to venom.*

### On vegetation

- [Slender Sac Spider](#). *Mild to severe local pain*
- [Net-casting Spider](#) *No bites recorded*

- **Black House Spider** *Nip and run. Mild to severe, considerable disagreement concerning severity. Infection a known problem needing medical management*
- **Flower Spider.** *Ready biter. Mild local pain*
- **Triangular Spider** *Nip and run, held in. Mild local pain for about 30 minutes. Forms red welt and heat*
- **[Leaf Curling Spider.](#)** *Mild local pain*
- **Jumping Spider.** *Rare biter, mild local pain*

### Circular web

- **[Golden Orb-weaver.](#)** *Bites only if forced*
- **Jewelled Spider.** *Mild local pain*
- **[Garden Orb-weaver](#)** *Hard, strong readily delivered bite. Typically mild local pain fro 30 minutes, atypically 3-4 hours strong pain*
- **[St Andrew's Cross](#)** *Mild local pain.*
- **Scorpion-tailed Spider.** *No bites recorded*
- **[Silver Orb Spider.](#)** *No bites recorded*
- **Grey House Spider.** *Mild local pain. No venom glands*

### Tangled web

- **Net-casting Spider** *No bites recorded*
- **Tent Spider.** *Bites only if forced. No effects*
- **Daddy-long Legs.** *Easily kills redback and huntsman spiders coming into its web*
- **[Redback.](#)** *Mild to severe (highly variable) including death. Typically intense local pain. Early medical attention*
- **Brown Widow.** *Mild to severe local and generalised pain.*
- **Comb-footed Spider.** *Mild local pain*
- **Red House Spider** *Mild to severe local pain*

### Funnel-shaped web

- **Tent Spider** *Bites only if forced. No effects*
- **Black House Spider** *Nip and run. Mild to severe, considerable disagreement concerning severity. Infection a known problem needing medical management*
- **Funnel-web** *Severe, sometimes death. Males more venomous*
- **Redback** *Mild to severe (highly variable) including death. Typically intense local pain. Early medical attention*
- **Russian Tent Spider**
- **[Tree-dwelling Funnel Web.](#)** *Lethal to humans*

### Other spiders

- **Magnificent Spider.** *No bites recorded*
- **Bird-dropping Spider** *No bites recorded*
- **Water Spider** *Mild local pain*
- **Giant Water Spider** *timid, but probably causes mild local pain*

- **Whip Spider** *No recorded bites*
- **Two-spined Spider** *Mild local pain*
- **Lynx Spider.** *No bites recorded*
